

## ENVIRONMENTAL POLICY OF LAMINADOS LOSAL

*Laminados Losal*, conscious of its share of responsibility with our environment, assumes as a business objective the protection of the environment in the activities of special profile rolling, hot-rolling and to cold draw.

This objective is reflected in the principles underlying this environmental policy, which are materialised in the implementation and improvement of an Environmental Management System in accordance with the requirements set out in the UNE-EN ISO 14001 standard.

The principles of the environmental policy of *Laminados Losal* are as follows:

1. Compliance with the applicable environmental legislation, as well as any other commitments of an environmental nature that *Laminados Losal* subscribes to.
2. The System shall be maintain to implement and update allowing for the prevention of pollution and to control those environmental aspects of the company, orientated towards a continuous improvement of our actions.
3. This move towards continuous improvement is considered both in terms of structural issues (organisation, documentation etc) as well as the establishment and review of environmental targets and objectives. This momentum can rely on the initiative of any employee of the company, which will be appreciated and encouraged by Management.
4. The communication channels and suitable training shall be maintained to learn about the environmental implications and to encourage behaviours harmonious with the principles of this policy.
5. Gradual incorporation of our suppliers in our environmental protection efforts.
6. We make publicly available our environmental policy, in order to involve the public in our environmental commitment.

Guernica, January, 2007

Signed: General Manager
